Art Unit: 1618

Claims 1-58 are presented for examination.

The remarks filed on August 2, 2005 have been received and entered.

Claims 1-58 are objected to as being improper. Claims 1-25 should be identified as "original", since they are again identical to the patent claims. Claim 13 is "amended" but does not show the changes from the original patent claims by underlining and brackets. Claims 27-58 should all be "new" and have only underlining. See MPEP 47 CFR 1.173.

Claims 57 and 58 are rejected under 35 U.S.C. 251 as being broadened in the reissue application filed outside the two year statutory period. Removing the limitation "greater than 0.5 μ m in diameter" is impermissible. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process that would have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant in his arguments indicates that the new claims 57 and 58 correspond to claims 6 and 10 of the U.S. Patent. The arguments are not well taken. Claims 6 and 10 of the U.S. Patent depend on claims 1 and 2 of the U.S. Patent which have the limitation of "greater than 0.5 μ m". Such limitation was relied on for the allowance of the Parent application, and thus cannot be removed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1618

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
